THE COVER

THE COVER picture shows Raquette Lake at Camp Huntington in the Adirondacks, with the silhouettes of Cortland students in the foreground. Camp Huntington is Cortland's Camping and Outdoor Education Center. It is a very active place all year round, but especially so from early June until college opens in the fall.

FROM THE ALUMNI PRESIDENT

Dear C.S.T.C. Alumni,

Again it is my privilege to greet you and, as another year draws to a close, to extend to you a sincere invitation to attend the events of Alumni Day on June the tenth.

Did you enjoy your Newsletter? Your response to it was very much appreciated. If you neglected to reply please feel that it isn't too late.

Have you planned to return for Alumni Day?

Two purposes of returning are to renew friendships and to see what is new at our Alma Mater.

Last June ground was broken for the new dormitories and Student Union. This year this building will become reality. Do come to see what progress has been made.

There will be much time to spend with your friends. I promise you a streamlined business meeting after which you may lunch and chat with your friends. Following this, you may attend your class reunions and the Alumni.

Please make plans with some of your friends; look up old yearbooks and pictures; and return on June tenth to make the most of Alumni Day. You will have fun and at the same time your Alma Mater and officers will know that they have your support.

Very sincerely,
Paulina Dennis

FROM THE ALUMNI OFFICE

To the Alumni:

The postcard usually sent in May to all Alumni is being omitted this year in order to send this issue of THE CORTLAND ALUMNI to all members of the Alumni Association. We shall be grateful for corrections in the membership list, which has been compiled from records in the Alumni Office.

It is hoped that Alumni Day will bring back to the campus a large number of alumni—not only members of Reunion classes, but of all classes. Members of the 60- and the 50-year classes (1890 and 1900) will be guests of honor at the Alumni Luncheon on Saturday, June 10.

Will you who receive this magazine pass on to non-members of the Alumni Association an invitation to participate in the events of Alumni Day and in the support of the Association?

With deep appreciation of your cooperation and best wishes!

Sarah Gridley Ross,
Executive Secretary

NEWS OF THE COLLEGE

President Smith's Message

With the advent of additional facilities on our campus, we are somewhat freer than formerly to turn our attention to the most important aspect of college administration, that is the selection of students. This is particularly difficult in the field of physical education at this time, for the story has been widely circulated that the field is overcrowded. Actually, however, this is not true. There is a serious shortage of women physical education teachers, and Cortland has always been able to place the men it has selected for training. We see no reason to doubt in the foreseeable future that this condition will change, except perhaps to have needs for physical education teachers increase as pupil-teacher ratios become more realistic in the public schools in this field.

Certainly it is widely recognized that there is a serious shortage of elementary teachers. Won't you please, therefore, accept another appeal from me to do your best to encourage able students with whom you come in contact to enroll at Cortland? It is only by having a great number of applicants that a college can be selective, and unless we do set up a selective program, our graduates are not going to maintain the high level of teaching performance that has made the reputation of this college what it is.

Our status under the State University of New York gives us real assurance that physical facilities will be forthcoming. The only assurance, however, that we can get as to the quality of our student body comes from active alumni in the field who, through professional example and oral persuasion, bring promising high school graduates to our doors.

Student Committee on the Union and Residence Halls

John Reardon, '50

The long awaited Student Union and Student Residence Halls are now nearing completion. Along with material progress there is seen a definite progression of democratic ideals concerning the government of these

structures. Not so long ago Dr. Donnal V. Smith, an outstanding democratic realist, organized a joint committee of student and faculty representatives to formulate the governing policies for the operation of the Student Union and Residence Halls. The faculty representatives were chosen in relation to the type of professional work in the college.

The end product of the joint committee's work comprised two constitutions by which, both the Student Union Board of Governors and the Student Residence Assembly, will have some workable plan to conduct the management and operation of the aforementioned facilities. Each of the constitutions is fashioned after the student's governing body constitution of the Cortland College Association.

The Five Year Plan For Physical Education

Professor Francis J. Moench

Graduate study in physical education and the related fields of health and recreation is no longer an innovation at Cortland. The first graduates will receive their masters degrees for advanced study in June, 1950.

The fifth year at Cortland is designed to increase teacher competence in the undergraduate specialization or in a second major in one of the related fields. Independent and constructive study of the practical problems of the teacher are carried out, using the workshop, seminar and field study approach. Many former graduates of Cortland and other leading schools of health, physical education and recreation are enjoying their graduate study, either on the campus or at the new Huntington Memorial Camp at Raquette Lake. While graduate study is being offered only in summer session or extension at the present time, September, 1951 will see the initiation of the fifth year program in the regular college session.

Highlights of the 1950 summer session include courses in curriculum and program construction, supervision, facility and equipment plan-

ning, and several workshop clinics in coaching major sports and physical education activities for the elementary field. The regular college staff is being augmented by outstanding authorities as visiting instructors. Included in this group are Floyd Schwartzwalder, coach of football at Syracuse, Royner Greene, coach of basketball at Cornell, Dr. Jeanette Saurborn, of Bronxville, outstanding authority on physical education for the elementary school, Frank Kavanagh, athletic trainer at Cornell, and Karl Lawrence, former coach of basketball at Colgate.

What could be more pleasant than a summer in the lair of the "Red Dragon"?

The New Athletic Field

Professor Donovan C. Moffett

The acquisition by the College of approximately 21 acres of comparatively level ground, known as the George Jenman property, promises to be a source of satisfaction for students, teachers and administrators at Cortland. This urgently needed space will provide areas for the conduct of classes and will permit a much greater expansion of the intramural program, as well as fields for intercollegiate athletics and sports days sponsored by the college. It is located just south of the Cortland Water Works property and immediately north of the new Overhead Door Company property on Tompkins Street.

As soon as the transfer of title to the State University of New York is completed, work on the development of this tract will be initiated by the Department of Public Works. It is presently planned to construct on the site twenty tennis courts, two football fields, two soccer fields, a field hockey field, two lacrosse fields, two baseball diamonds, and two softball fields. In order to realize the full use of the area, both time and work to be done must be taken into consideration. The grading to be done is rather extensive and seeding of the area after grading will require time for a satisfactory playing field turf to be prepared. But at least we are on the road to more satisfactory playfield conditions than we have had up to this time.

The Class of 1950

At the Alumni Luncheon on Alumni Day, June 10, the members of the class of '50 will be inducted into the Alumni Association. The class will be presented by the President of the College, Dr. Smith, and welcomed by Miss Paulena Dennis, President of the Alumni Association. Response will be made by the Senior President of the class of '50, John Tilley.

John Tilley

John Tilley, Buffalo, who has presided over the Senior class during the past year, transferred from Cornell at the end of his freshman year, having decided that he wanted to be a teacher rather than an engineer. Commencement, 1950

The One Hundred and Ninth Commencement Exercises of the College will be held on Sunday, June 11, 1950 at 4 P.M. Approximately 225 students will receive the degree of bachelor of science in education. For the first time in the history of the College the degree of master of science in education will be granted to several advanced students. Upon satisfactory completion of their work, Marguerite E. Pedrone, Bethel Leighton, Gordon H. Foote, Mary Thelma Drake, and Mary Marquart Davis will receive their degrees for work in the general elementary graduate program, and Robert Springer will receive his degree with a specialization in health education.

A return to an outdoor ceremony will be attempted this year. Plans call for the erection of a speakers' stand on the upper field in front of the football stands. Appropriate color and pomp will be planned for the exercises. The College Band will provide the music. In case of inclement weather, the Exercises will take place in the College Auditorium.

The change of Commencement from Monday to Sunday with the elimination of the Baccalaureate Sermon on Sunday should facilitate the attendance of more parents and relatives at the Exercises. As usual, attendance will be limited to those having invitations.

The Commencement speaker will be Professor T. V. Smith of Syracuse University. Dr. Donnal V. Smith, President, will grant the degrees for the State University of New York, the Board of Visitors of the College, and the Faculty. Dr. Lynn E. Brown, Dean of the College, will present the candidates for degrees.

THE SUMMER SESSION

The regular 1950 summer session will extend from July 3 to August 12. A twelve day post-session from August 14 to 26 will also be offered. Work during this post-session may be taken at the college or at Raquette Lake in the Adirondacks.

The summer program has been organized to meet the varying needs of students. A teacher, principal, or supervisor may attend the summer session from one to eight weeks and earn from one to eleven semester hours credit.

News of the Cortland Alumni Clubs

Cortland Alumni Club of Long Island

There was no fooling when the delicious steak luncheon was enjoyed by about seventy members of the Cortland Alumni Club of Long Island at the Stirrup Cup Castle Restaurant in Oakdale Saturday, April 1, 1950.

DR. WILLIAM DOUGHTY '97 opened the luncheon program with the invocation. Following the luncheon, President STANLEY BABCOCK '34 introduced Miss SARAH ROSS, the Executive Secretary of the Cortland Alumni Association, who gave a very interesting talk about the work of the Alumni Office. DR. DONNEL V. SMITH, President of the Cortland State Teachers College, was then introduced and gave a very complete picture of the new vistas of the college, both from its enlarged plant and enlarged curriculum, and faculty staff. His talk was one that makes a Cortland Alumnus proud of the growth of our Alma Mater.

At a short business meeting the Club voted acceptance of a Constitution and re-elected the following slate of officers for the coming year;

STANLEY J. BABCOCK '34, President

WALTER R. SUESS '48, Vice President
